PROFESSIONAL SUMMARY

Computer Science undergraduate (CGPA 8.35) with a solid grounding in data structures, algorithms, and object-oriented programming. I build full-stack and automation projects in Python, Java, and JavaScript, use Git daily, and have shipped three applications to cloud hosting. Completed a data engineering internship in an Agile team and have solved 400+ coding problems.

EDUCATION

Madan Mohan Malaviya University of Technology, Gorakhpur 2024 - 2027
B.Tech, Computer Science & Engineering | CGPA: 8.35

Government Polytechnic Pratapgarh 2021 - 2024
Diploma, Computer Science & Engineering | 81.08% (BTE Uttar Pradesh)

Saint John Inter College | UP Board, Uttar Pradesh | 86% 2021

Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript
Web and Backend: React.js, Node.js, Express.js, FastAPI, REST APIs, JWT Authentication
Tools and Practices: Git, GitHub, Agile/Scrum, Jira, Confluence, ETL Pipelines, Automation Scripts, Code Reviews
Cloud and Deployment: Vercel, Render
Professional: Written and Verbal Communication, Cross-functional Collaboration, Analytical Thinking, Attention to Detail, Problem Solving
Data and AI: NumPy, Pandas, Streamlit, LLM APIs (Gemini, Groq, Claude), Retrieval-Augmented Generation (RAG), Prompt Engineering

EXPERIENCE

Product Engineer Intern, Data Science and Team Coordinator | GetPost Labs Pty Ltd, Remote (Brisbane, Australia) May 2026 - Aug 2026

- Led a cross-functional team of 4 in an Agile environment and modeled how crude oil, gold reserves, the USD/INR exchange rate, and inflation affect India's economic stability, using data from the RBI, IMF, World Bank, and OPEC.
- Built automated ETL pipelines and BI dashboards that tracked 5 macroeconomic indicators and cut manual processing time by 60%.
- Managed sprints, knowledge repositories, and milestone tracking, and delivered every milestone on time (100% on-time delivery).

PROJECTS

NazarAI: Agentic Civic Automation Platform | Live August 2025

- Built a civic issue reporting platform that uses Gemini Flash vision to classify citizen-uploaded photos into predefined issue categories, with WhatsApp alerts through the Twilio API and JWT-secured REST endpoints.
- Presented the project at India Innovates 2026 in New Delhi, a national event with 1,200+ participating teams.
  Tech Stack: React.js, TypeScript, Node.js, Express.js, Gemini AI Vision, Twilio WhatsApp API, JWT

Auto Data Analyst: Automated EDA Platform | Live July 2025

- Built a web application with Pandas, FastAPI, and Streamlit that cleans, analyzes, and visualizes uploaded CSV datasets automatically.
- Automated chart generation and report creation with Groq LLaMA 3.3 70B, which greatly reduced manual data analysis effort.
  Tech Stack: Python, Pandas, FastAPI, Streamlit, Groq LLaMA 3.3 70B

ArchMind: Multi-Agent Code Intelligence (RAG) | Live

- Built a multi-agent RAG system that parses source code with AST analysis, builds a NetworkX knowledge graph, and retrieves context through hybrid Qdrant and BM25 search, orchestrated with LangGraph.
- Deployed the frontend on Vercel and the backend on Render.
  Tech Stack: Python, LangGraph, Qdrant, NetworkX, Groq Llama 3.3 70B, Vercel, Render

POSITION OF RESPONSIBILITY

President, FLUX (College Technical Society) | MMMUT Gorakhpur

- Lead a team of 50+ members and manage technical events end to end, including planning, logistics, and cross-team coordination.
- Led backend development of a live event management platform used by 500+ users, and improved the team's delivery pace through structured code reviews and Git workflows.
- Communicate regularly with faculty, sponsors, and student teams to manage several concurrent initiatives.

ACHIEVEMENTS AND CERTIFICATIONS

- **National Finalist, India Innovates 2026:** presented NazarAI at Bharat Mandapam, New Delhi, among 1,200+ engineering teams.
- **Top 10, DecodeX National Hackathon** (NLDIMSR Mumbai): ranked in the top 10 of 250 teams for a data-driven solution.
- **Problem Solving:** 400+ problems solved on LeetCode and other coding platforms.
- **Certifications:** Udemy Python (2025: Advanced OOP and Backend Engineering); Cisco Data Science Certification.
